

Harish Kumar Pandey

Bharatpur-4, Chitwan, NP 44200 • +977 9815261858 • pandeyharish394@gmail.com

As a full-time student of Bachelor in Computer Application, I am equipped with a solid foundation in programming languages, data structures, and algorithms. I possess a strong aptitude for problem-solving and a keen interest in emerging technologies such as artificial intelligence and cybersecurity. With a strong work ethic and a commitment to continuous learning, I am eager to apply my academic knowledge and contribute to real-world projects.

Experience

2021 Web development trainee

- There I mainly focused on learning the actual practical knowledge to implement my web development skills
- Developed various frontend sites as practice projects
- Collaborated with my fellow team members in all the learning activities and also did some projects collaboratively

Skills

- Full-Stack Web Development: proficient in creating dynamic and responsive online apps using the front-end languages of JavaScript, CSS, and HTML.
- PHP and Laravel Framework: experienced in using PHP and the Laravel framework to construct dependable and scalable backend systems that provide effective data handling and secure application architecture.
- Database Management: knowledgeable about constructing tables, writing queries, and maintaining data integrity while also designing and optimizing databases.
- Frontend Technologies: strong experience with front-end technologies that enhance user interfaces and improve user experience, like Bootstrap and jQuery.
- Version Control: capable of managing code effectively and encouraging collaborative development through the use of Git and GitHub for version control.
- Problem Solving: Ability to understand difficult issues, find efficient answers, and put those solutions into practice.
- Debugging and Testing: Skilled at thoroughly testing, debugging, and ensuring the performance, security, and usability of web applications.
- Adaptability: Quick learner having the capacity to acquire new programming languages and technologies in order to keep up with the continuously changing web development industry.

- **Communication and Collaboration:** Strong interpersonal skills and the capacity to communicate with stakeholders, clients, and members of the team.
